

Ideation Phase Brainstorm & Idea Prioritization Template

Date	3 rd October 2026
Team ID	6aba0fe75015c35b98630d90
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

🕒 10 minutes to prepare
🕒 1 hour to collaborate
👥 2-8 people recommended

Before you collaborate
A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

A Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.

C Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

1 Define your problem statement
What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

How might we [your problem statement]?

Key rules of brainstorming
To run a smooth and productive session

- Stay in topic.
- Defer judgment.
- Go for volume.
- Encourage wild ideas.
- Listen to others.
- If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

Brainstorm

Write down any ideas that come to mind that address your *problem statement*.

10 minutes

Tip

You can select a sticky note and use the pencil icon to quickly enter the text. You can also draw directly onto the sticky note.

Group ideas

Tales turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

35 minutes

Person A

TIP

Add customizable tags to sticky notes to make it easier to find themes, organize, and categorize important ideas as themes unfold your think.

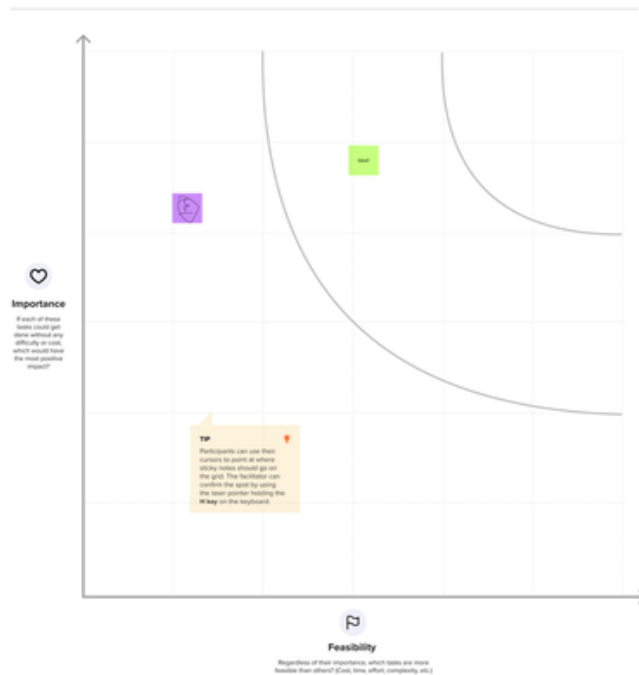

Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

**Problem Statement:**

Standard laptop procurement involves repetitive manual tasks such as receiving requests, validating employee and device details, checking approvals, creating procurement records, and notifying stakeholders. This can cause delays, inconsistent processing, and avoidable manual effort.

Objective:

Automate the standard laptop ordering process using ServiceNow Flow Designer so that approved requests are validated, routed, tracked, and communicated with minimal manual intervention.

Idea Group	Brainstormed Idea	Expected Benefit
Request Intake	Create a standardized laptop request form/catalog item with required employee, department, location, and laptop details.	Consistent request capture
Validation	Automatically validate required fields and confirm that the requested laptop matches the standard configuration.	Fewer incomplete requests
Approval	Route the request to the appropriate manager or IT approver based on	Faster authorization

	predefined conditions.	
Procurement Task	Automatically create and assign procurement tasks after approval.	Reduced manual work
Notifications	Send automated status notifications to the requester and relevant IT/procurement teams.	Better communication
Tracking	Update request/task status automatically so stakeholders can monitor progress.	Improved visibility
Exception Handling	Route non-standard laptop requests or failed validations to a manual review queue.	Controlled exceptions
Auditability	Maintain request, approval, and task information for traceability and reporting.	Clear audit trail

Priority	Idea / Flow	Impact	Feasibility
1	Automated request validation and approval	High	High
2	Automatic procurement task creation	High	High
3	Automated requester/IT notifications	High	High
4	Request and task status tracking	High	High
5	Exception routing for non-standard requests	Medium	High
6	Audit and reporting	Medium	Medium

	information		
--	-------------	--	--

Selected Concept: Build a ServiceNow Flow Designer workflow that starts from a standard laptop request, validates the request, obtains the required approval, creates procurement activities, updates status, and sends automated notifications. Non-standard requests are routed for manual review.
